Chronic rhinosinusitis is a common disease in otolaryngology practice. The reconstruction of the sphenoid bone plays an important role in endoscopic sinus surgery (ESS) for chronic rhinosinusitis. To evaluate the clinical outcome and safety of endoscopic assisted drilling for sphenoid bone reconstruction. From February 2012 to February 2017, 47 patients with chronic rhinosinusitis and sphenoid sinus mucosal thickening underwent endoscopic assisted drilling for sphenoid bone reconstruction. The follow-up time ranged from 4 to 56 months. The pre- and post-operative subjective symptoms and objective findings were evaluated with the visual analogue scale (VAS) score and Lund-Mackay CT score respectively. Complications during and after surgery were recorded. Post-operative endoscopic examination and the findings of facial CT scan were done to evaluate the bone thickness and position of the implants, mucosalization, the presence of edema and bone healing after surgery. The pre- and post-operative VAS score and Lund-Mackay CT score were 1.9 ± 1.0 and 9.9 ± 3.6 respectively. The operative time was 16.1 ± 7.8 minutes, and the operative field was exposed by endoscopic assisted drilling technique for 3.5 ± 0.8 minutes. There was no perioperative complications and recurrence. Post-operative endoscopic examination and the findings of facial CT scan showed complete mucosalization of the sphenoid bone, normal sphenoid mucosa, the position of the implants was good, and the a1d647c40b

Type the keygen in to the program and press ENTER. Then the keygen will generate a patch file and a patch file. Take the patch file from the generated patch file. Run the patch file and you will be able to install Autocad 20 under the license given to you. And you are done. A: Have you tried? C:\Program Files (x86)\Autodesk\AutoCAD 2020\Acad.exe --locale=C Q: How can I turn off coloring of the date field in a DataGridView? I've got a DataGridView which is bound to a dataset. One of the columns of the dataset is a DateTime column. When I display this column, the date is displayed with a white background. How can I turn off the background color? I want to use the built-in DateTime format of the DataGridView, not something I've written myself. A: It sounds like you're trying to change the color of the binding's column, instead of the DataGridView. You should be able to set the DataGridView's Grid.DefaultCellStyle.BackColor property to Color.Transparent, or set the column's default template. A: You could use a template and have the date format in the template. I don't know if there is a DataGridView control that would let you have the default template, but if there is, you could just make a new template and use that in your datagrid. Black cats are a common sight in the city and, according to some, bring bad luck. It's not true, says the principal of a primary school in London where black cats are a no-no. Tutors Diana and John Haywood are always on the lookout for any new ideas to add to the lesson planning at the school, Whimsey Drive Primary, in Edgware, north-west London. "It's a mixed community school with over 60 children and I try to encourage children to take a range of different learning opportunities," says Mrs Haywood. "I have taught at Whimsey Drive since I was a primary school teacher and when I moved here I found that we had a lot of cats," she says. "The thing is, children get attached to their pets and often they
