Lucidity is an elegant and professional clock with a powerful customization feature built-in. Furthermore, Lucidity supports multiple themes and multiple times zones, and provides multiple languages. It also features the "job scheduler" to let you execute commands on specified time. Gnome Actions Description: After installing Gnome Actions, we can see an interface for configuring actions by right-clicking the desktop and selecting "Add this to the panel". You can configure several actions as you wish. Gnome Panel Description: We can add a taskbar panel by installing Gnome Panel and dragging it to any edge of the screen. It can be moved and resized as you wish. You can also customize it by clicking on the panel's top edge, right-clicking, and selecting "Preferences". Window List Description: Right-click the desktop and select "Window List" to see all your windows, including the active windows. You can pin a window or use Gnome's "Quick Launch" feature to launch your favourite applications. Desktop Calendar Description: We can add a Desktop calendar to the panel. It lets you know the current time and date. You can also configure the application to launch automatically when a certain date is reached. Other Description: A number of other features were added to improve Lucidity's overall functionality and features. These are detailed below: One can configure clock time by using the "Configuration" feature

of Lucidity. Another cool feature is that Lucidity remembers your favourite themes. So, when you set a new wallpaper and theme, Lucidity will automatically switch the application to your favourite theme and wallpaper. The interface is translated into many languages. You can add up to 100 time zones. There is support for printing through the console. Administrator Notice Admins who decide to enable the Web GUI of Lucidity will be in charge of deciding which users are allowed to view them. This is necessary because it helps you to prevent users with extreme graphical skills from accessing the webserver and gaining access to the full application. This can be achieved by using the following setting. Setting: Defaults: auth_username admin auth_password admin123 You must remember that there is

Declarația a fost făcută de ministrul Mediului, Gabriel Petrea, după ce agentul de paisprezece ani a fost împușcat și amețit de un cetățean care îl amenințase cu un câțel. Ministrul Petrea a declarat că a făcut o investigație în acest caz. „Dacă eu am făcut o primă suspiciune, doar suspectul avea o notă foarte mică. Dacă nu m-am gândit, s-ar fi făcut o investigație și lămurirea asta. A avut un articol în jurnal de adevăruri, că sunt puțini cetățeni care au puterea de a face astfel de investigații. Îmi pare foarte rău, n-are rost să mai văd cât de puțin știu. E bine să fii audiat și să-ți pui câteva întrebări la un moment dat, că de la acest moment ții”, a spus Gabriel Petrea. Doamna este membru PSD și a trecut prin mai multe procese judecătorești. Acesta a mai fost și condamnat în dosarul de la Simeria, față de care
