(1924â€“2000) You're doing a wonderful job - thank you so much for making the time to do it. I'm not sure how long it'll take me to get used to this, since I've never used SVG, but I'm really excited to get started. I do have one last question and I'm not sure how to ask it. When I imported the SVG files, they are obviously in the opposite order to the images that go into the book: So, for example, the images in the image `id="images/09-restrooms/line_0.svg"` appear first, and then the images in the image `id="images/09-restrooms/line_1.svg"` appear, etc. in reverse. How would I go about ordering them in the correct order, so that I get the images displayed in the right order, when they are posted to the book? Thanks for any help and please let me know if I need to provide any additional information. Cheers, Paula Greetings, Before I proceed any further, I'd like to

---

point out that SVG is a vector-based graphic element, and this means that it takes very little space, unlike a raster graphic, which is an image of a fixed size. If you are new to SVG, the following will get you started and introduce you to some of the elements that can be used. The following sections of this tutorial will focus on using the basic elements in the SVG domain, and so I won't go into much detail with the more complex elements. The following sections will give you an overview of how to: Add CSS to your SVG (a technique for styling your SVG graphic). Import your own SVG or other graphics. Add background images to your SVG. View and edit SVG code. In short, you will need to have knowledge of the following in order to progress: How to use CSS; How to import external graphics in your SVG; How to view and edit SVG code; and How
