Q: Unable to execute "./node_modules/mobx-state-tree/lib/commands.js --help" When I run ./node_modules/mobx-state-tree/lib/commands.js --help I get -bash:./node_modules/mobx-state-tree/lib/commands.js: Permission denied When I run chmod +x./node_modules/mobx-state-tree/lib/commands.js I get chmod: cannot access `./node_modules/mobx-state-tree/lib/commands.js': No such file or directory I'm using nvm How do I fix this? A: chmod +x./node_modules/mobx-state-tree/lib/commands.js should be: chmod +x node_modules/mobx-state-tree/lib/commands.js -bash:./node_modules/mobx-state-tree/lib/commands.js: Permission denied Because the shebang on that file is #!/usr/bin/env node, which is a Bash environment variable for the node executable. You don't have a shell that runs Bash for node. Instead, try sh -x./node_modules/mobx-state-tree/lib/commands.js or bash -x./node_modules/mobx-state-tree/lib/commands.js. The -x flag should enable all shell commands, so you'll get a more detailed display of which line of the file is failing and so on. �s churches and monasteries were closed by the communist regime in 1945.
