Description: Sapphire Plugins helps you capture the big moments of your wedding day and beyond—like the arrival of your bride or groom or the kiss at the altar—and works in with your favorite editing programs to give you the best picture of your wedding day. With Sapphire Plugins, you get beautiful wedding pictures without all the hassle of capturing them yourself. And as far as editing is concerned, you can have one of the best image-editing suites and post-processing software available without ever having to leave your computer. After all, isn't the wedding day all about the memories of the big day? Sapphire Video helps you to capture those pictures and videos, and make them the best they can be. Sapphire Plugins gives you the best and easiest-to-use video editing software on the market. It's easy to get Sapphire video features. And, just like all of our popular Sapphire series products, you can try Sapphire Plugins free for 30 days—on your own wedding video. So take advantage of Sapphire Plugins' wedding video tutorials, features, and free-trial offer today. Once you see the value that Sapphire Plugins has to offer, you'll wonder why you didn't offer to sign up for Sapphire Plugins sooner. If you aren't sure whether Sapphire Plugins is right for you, take a minute to watch Sapphire Plugins Weddings. This quick tutorial movie lets you see what the software can do for you—and it's less than 2 minutes long! And to put it in other words, Sapphire Plugins' wedding software lets you see your wedding day unfold right before your eyes—from the arrival of your bride and groom to the kiss at the altar—and with this ease of use, you can get all your shots just as you want them, and leave the post-processing to Sapphire Plugins. Whether you're a beginner or a professional, Sapphire video is designed to be easy to use, and even easier to master. Sapphire Plugins is the perfect solution for simple, direct and comfortable video editing, so you get all the power you need in a simple to use interface. And the best part is that you can do this with all the standard video editing tools you know and love from your non-Sapphire editor—without a plugin. Just connect your camcorder or other video camera to your computer and switch on Sapphire video software. And you're ready to edit. You
