Lamex Player is an application that lets you download audio and video from hundreds of sites to your hard drive, and it comes with a built-in player for music and video. The program features a clean-looking main window where you can view information about the sites you have selected, choose the preferred format and save the music or video to disk. It is also possible to show video or audio in the program's embedded player. You can use Lamex Player to download YouTube videos, MP3s and MP4s, as well as the most popular Kodi add-ons. Unfortunately, the application is not very reliable. In fact, it barely works without Internet connection.

Music Player Lamex Player supports a full-fledged music player with support for playlists. You can choose between various popular formats and resolutions, set the player's volume and use up to three equalizers. Lamex Player also has a built-in search feature. Just type in a search term and it will show you everything you find. You can also right-click or control-click on an item and it will be downloaded immediately with Lamex Player.

Video Player Lamex Player also features a fully-fledged video player. It is possible to select a few video formats, adjust the output resolution and choose between various VLC skins. You can also set the video to loop, search with YouTube or Lamex Player and add or remove subtitles.

Lamex Player Features: * Easily download music and videos from more than 200 sites * Choose formats and resolutions * Adjust the video and audio levels * Save videos to disk * Show videos in Lamex Player * Adjust playback speed and autoload the next file automatically * Free and open-source
