dbge sql complete 4.7 â†— Back to top From: JB. Date: 05/08/2002 11:36 Hi all! There was a problem. There is a field in the database that contains the long data type. In one particular column of this field, I have an ascending sort. The problem is that I don't know how to properly use the insert function in this case. The point is the following. There is a table with a long field with NUMBER data type. In this table, the DATE column is sorted in ascending order.
