The Kari Sweets Ultimate Collection has just released new pictures of Kari getting completely topless and uncensored. It's from her K2 photo shoot, but this time in... no, not a swimsuit. In a bikini. Basically it's just pictures from her. They were released as the cover of a new magazine, which is very good. In fact, it's not just the cover. They also released a whole photo album. Kari made a big contribution to this project, she became the face of this catalog. And, of course, her photos were on the cover. Kari turns 23 this month. She currently lives in Los Angeles, California. Photo: Kari Sweets
