Zombie Army Trilogy Multiplayer Crack 25

I don't know how to fix it. Awful unstable game. I can't access the customization screen, whether it's lag or not I don't know. Half the servers are fucking down. Two of my friend, who i first played this game with, . I can't connect any of my friends. I go on and join but it says noone online. I can't do the horde mode. I just watch my friends play for one hour and then leave. The servers are mostly down. The game is great but i can't play horde mode and i can't set my own deathmatch and kill a zombie. This is a great game, but not playable right now. I like it a lot, but i can't play it. Two days ago, i can still play a lot of games. i'm currently playing this and i have no idea why but i cannot join a multiplayer game and i don't know why.

Anyone with the same problem? I just have no idea why it doesn't work. Multiplayer is "Offline". But I can't play, it just says "Offline" and my hud is gone, all menus are gone. I tried reinstalling and I don't know what to do. I can't connect to horde mode when I join a game, I can't play the game in local but I can see the lobby, and join a lobby, but I can't play the game in that lobby. I can only see when people are playing the game or join. I never play multiplayer in real life but I want to play horde mode in here, but I can't do it. Multiplayer is offline.... i was winning with two to five players when the game was in multiplayer but it just went to offline. I'm stucked at lobby at multiplayer. How to fix it? I really need to

fix this. It worked perfectly fine, I updated the game and it blew up and the game is unplayable.
