sort orders in Microsoft Dynamics CRM 4.0 I would like to obtain all sort orders for a given entity. For example, if I have a record with a field called "Color" and I have a sort order called "Blue, Red, Yellow, Green" I would like to be able to retrieve the recordset "Blue, Red, Yellow, Green". My first approach was to use the following code (which I found online): SysVar _sortedSet = null; if (_recordSelection!= null) {
_sortedSet = _recordSelection.GetSortedSet(); e79caf774b
