ClipAll is clipboard manager for everyone. It collects the information of the Microsoft Windows clipboard and stores it in

a single text file for easy
sharing. This file contains the
information of the pasted text,
including formatting information
and the text itself. You can keep
this file open and share it with
your colleagues and friends to
make them aware of the information
you know. You can paste your own
information from the clipboard
with the option of right click. To
make it easier to manage your
clipboard information, you can
sort, group and search the
information in the clipboard.
More, you can add, copy or delete
the clipboard information and save
it to a text file. You also can
close the clipboard directly. It
can make you more productive.
Version History ClipAll 1.2.4.2
(2017-02-15) Fix Messagebox

formating bug. ClipAll 1.2.4.1 (2017-02-02) This new version comes with a new feature; new settings that does not break the original settings and restore the same settings after installation. ClipAll 1.2.4 (2016-10-13) This new version comes with a new feature; new settings that does not break the original settings and restore the same settings after installation. ClipAll 1.0.2 (2015-05-28) This new version comes with a better version for Windows 8/RT but with an installation b7e8fdf5c8

ClipAll Developer Tools is a clipboard manager, a file manager, a file explorer, and a clipboard history manager, which gives you an overview of the history of the clipboard, file explorer, file manager, and clipboard. The clipboard history manager also stores clipboard history as file paths or text, and you can even search within the clipboard history items. You can also categorize and bookmark the clipboard history items, or use the integrated Soap Manager and SQL editor plugins. Furthermore, you can export clipboard history items as flat files and SQL, or copy the clipboard content to the

clipboard history manager using
the clipboard manager or the
clipboard manager plugin. With the
clipboard manager, you can also
extract the clipboard text as XML
files, and clear the clipboard
history or erase the files on the
clipboard history manager. ClipAll
