The setting of Tarnished Crown is the Lands Between. Here, a thousand years have passed since the Elden and the Dwarves extinguished the world. Many tales are told from the time of peace in the peaceful lands to the terror that was brought upon the world by the era of the Demon King. Those who did not perish in the Great War have settled in this peaceful land.

Every year, monsters appear in the lands, and a new generation of heroes is born to confront them. In the search for the source of the monsters, the heroes of the past came to this world and scattered. Travelers searching for where the heroes settled across the world have discovered a looming presence in the Lands Between. They came to call this entity "the Elden Ring." When the player character enters the world, he will need to create a character that has the power to destroy the

Elden Ring in order to clear the path to the Fortunate Lands and join the Elden's eldest princess Tiamat in removing the threat of the lands. What kind of adventure awaits? Explore vast, dangerous lands. Hundreds of monsters to fight. Hundreds of items, magic spells, weapons, and equipment to use. Hundreds of dark and dangerous dungeons. It is an exciting fantasy adventure to be enjoyed by players of all ages.

STORY Events Before the Great War Player Character:
The player character was born in the Lands Between and raised by an elder wizard. He was a warrior of the great age of the Elden Ring and bore the name "Tarnished." Entering the Lands Between alone, he is a pure warrior whose only interest is in his sword and the defense of the lands. In the years that have passed, however, he has experienced hardship and lost his innocence. What reasons can there be for why he ventured into the Lands Between? What happened in the time before the Great War? What are the relationships between humans and the Elden, and what role does the Elden play in the Lands Between? The player character's story lies in the Lands Between.
