The core gameplay elements are basically the same, but the game mechanic has been significantly improved with a variety of detailed content and revisions to match the expansion. Please pay attention to the change in some of the objectives such as "Equipment acquired". In the previous version, the main story tended to become repetitive because you had to do the same things, which was a downside. To avoid that, a variety of useful elements, which you could enjoy or utilize as you progress, have been added so that we can encourage a variety of play styles. EXPLORE A VAST WORLD FULL OF EXCITEMENT A vast world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment. CREATE YOUR OWN CHARACTER In addition to customizing the appearance of your character, you can freely combine the weapons, armor, and magic that you equip. You can develop your character according to your play style, such as increasing your muscle strength to become a strong warrior, or mastering magic. AN EPIC DRAMA BORN FROM A MYTH A multilayered story told in fragments. An epic drama in which the various thoughts of the characters intersect in the Lands Between. UNIQUE ONLINE PLAY THAT LOOSELY CONNECTS YOU TO OTHERS In addition to multiplayer, where you can directly connect with other players and travel together, the game supports a unique asynchronous online element that allows you to feel the presence of others.
