Q: matching 3 first letter of two strings
What I want to achieve is: I have a list of strings, with first letters M and H, and I want to match and print those strings with the first three letter matching those of another strings. I tried

```
var tran = string.Join("|", tr_list.Select(b =>
b.Substring(0,3).ToLower() + b.Substring(3,b.Length - 3).ToLower()));
Console.WriteLine(Regex.IsMatch(Testcase2.Test2, tran).ToString());
```

Any suggestions? A: Use this string s1 = "MHM T"; string s2 = "T";

```
Match m1 = Regex.Match(s1, @"[MH]+"); Match m2 =
```

```
Regex.Match(s2, @"[TH]+"); if (m1.Success)
```

```
Console.WriteLine(m1.Value); if (m2.Success)
```

```
Console.WriteLine(m2.Value);
```

out put: MHM T T A: If your strings are small then you might want to consider how to store them. A list or an array, probably. A better way to solve this is with a dictionary, or Hashtable. Dictionary

FSX Alphasim Hunter Mod

1cdb36666d
