Gx Configurator Ad.rarAllocation of eight positions in the Beijing Municipal People's Congress and the National People's Congress is currently under way, with five positions given to CPPCC members and three positions handed over to civilians. According to the CPPCC's management regulations, the Chairman of the Standing Committee has veto power. The administrative arrangement can be changed only if Chairman Mao himself approves. The standing committees are being reformed in the light of this rule. In recent years, nearly all of the standing committees in the CPC Central Committee and the State Council have adopted a five-member composition model, with one elected member in the standing committees of the Central Committee and the State Council. The same has happened in all non-CPC institutions. For example, the CPI Standing Committee is currently composed of five members, five of whom are selected by the State Council, and the other five of whom are elected by its members. The standing committees of the CPC Central Committee and the State Council are reform-minded in nature, with the Standing Committee of the CPC Central Committee especially an all-powerful political organ which could not be reformed by the State Council. As a member of the standing committees of the CPC Central Committee and the State Council, the standing committees of the CPC Central Committee and the State Council are the same. CPCC Standing Committees have existed since 1952. In 1964 the Standing Committee of the CPC Central Committee was elevated

to Standing Committee of the CPC Central Committee. In 1972 the State Council Standing Committee was reorganized into the Standing Committee of the State Council. In 1982 the Standing Committee of the CPC Central Committee was divided into Standing Committee of the CPC Central Committee, Standing Committee of the CPC Central Committee, and Standing Committee of the CPC Central Committee. In 1993 the Standing Committee of the State Council was divided into Standing Committee of the State Council, Standing Committee of the State Council, and Standing Committee of the State Council, thus forming the Standing Committee of the State Council and the Standing Committee of the State Council. In 1993 Standing Committees of the CPC Central Committee and the State Council were unified and taken out of the Standing Committee of the CPC Central Committee and the Standing Committee of the State Council. The Standing Committee of the State Council was finally established in 2004. It comprises five members elected by the Standing Committee of the CPC Central Committee, five members by the State Council, and two other members elected by the General People's Congress of Beijing. d0c515b9f4
