## **What's New in the KNote?**

Create and edit notes, journals and diaries from anywhere. Easy to use graphical interface with all sorts of tools. Search bar makes it easy to find notes by simply typing in keywords. Insert images, links, tables, figures, outlines, mathematical equations, reformat text. Change font size, style, bold, italic, create columns, number list, arrange text from left or right. Links can be inserted and edited. Create new sections, indents, arrange notes into sections and much more. Preset or category mode. Print and import notes or journals from other applications. Links to older versions of KNotes. Differences between KNote for Android and KNote for iPhone: Pre-requisites Macintosh (OS X 10.8.4 or later) iOS 5.0 or later KNote for iPhone This version of Knote is for iPhone or iPad. Create and edit notes, journals and diaries from anywhere. Easy to use graphical interface with all sorts of tools. Search bar makes it easy to find notes by simply typing in keywords. Print notes and journal entries. Differences between KNote for Android and KNote for iPhone: Pre-requisites A suitable Android phone. iOS 4.2 or later. KNote for Android This version of Knote is for Android devices. Create and edit notes, journals and diaries from anywhere. Easy to use graphical interface with all sorts of tools. Search bar makes it easy to find notes by simply typing in keywords. Print notes and journal entries. Differences between KNote for Android and KNote for iPhone: Pre-requisites A suitable Android phone. iOS 4.2 or later. Connect to Internet (optional) KNote for Android Knote for Android allows you to save any text file on your Android phone or tablet, apart from the proprietary files created by the application. So if you want to edit one of the proprietary files, you can create a hotspot and connect to your WiFi or 3G network, find the folder where the file is located and open it, at which point you will be able to edit the file in the same way you can do it with the standard text editor you use on your computer.
