Homeworld is a space strategy game set in the 26th century. You control a group of players who will command a mobile fleet in a fight for resources and territory. Every game presents a single military campaign, following a linear story, and with no two games the same. In Homeworld Remastered Collection you will relive the epic space battles of the original Homeworld and Homeworld 2, experience the battles in full HD resolution and customizable control schemes, and enjoy the latest audio and visual enhancements. Check out the preview! Homeworld Remastered Collection is an epic space strategy game set in the 26th century. Play the single player campaigns for Homeworld and Homeworld 2, or experience one of five new multiplayer modes. Every game presents a single military campaign, following a linear story, and with no two games the same. Main Features: Homeworld Remastered: Experience the epic space battles of the original Homeworld and Homeworld 2 in high resolution, at a customizable control scheme, and with improved sound and graphics. Homeworld Remastered Multiplayer: Compete against other Homeworld players in nine game modes including five new games. Classic Homeworld Multiplayer: Experience the original gameplay of Homeworld Classic multiplayer in HD, including five new game modes and five multiplayer maps. Homeworld Remastered Collection also provides access to Homeworld Remastered Steam Multiplayer, a 25 years old classic RTS space strategy game. Homeworld Remastered Collection will also include the original non-remastered versions of Homeworld Classic and Homeworld 2 classic, preserving the purest form of the original releases. Experience the epic space battles of the original Homeworld and Homeworld 2 in high resolution, at a customizable control scheme, and with improved sound and graphics. Experience the original gameplay of Homeworld Classic multiplayer in HD, including five new game modes and five multiplayer maps. Another \$20 huh? No thanks. Its waaaay too expensive. All they need to do is give it a discount and it would be much more reasonable and I would actually consider buying it. I doubt it will be discounted because of how big of an investment it is for the devs. I'm making a smartass comment but without a single sale of the collection on steam it's safe to say that the quality of the games is not stellar. Let's see. The Windows games are black (no trackball pointer) and crash when closed. The Linux games have no mouse and are incredibly laggy.

This game is completely FREE and ad supported. Project:Pong is a 2D super-multiplayer ping pong game. You play as a single character. Shoot the ball towards other player's paddle. The game is all about collecting balls and point goals. You have two characters to control, left and right. You can use controls to move your characters, jump, dash, press keypad to change your characters or bind the character you press. Super PONGE!!! Game Description:The Pong game is very simple: there are two players, one on each side of the screen, to score a point you have to throw the ball past the opponent preventing the other player from doing the same by moving your character up and down... but what if there were two balls? What if there was fire in the middle? What if the whole field was frozen and there were skaters knocking the ball? What if there was a snake? A cannon? Ghosts? Bats? Wind? Water? Portals? This is the kind of ideas that inspired me in creating Project:Pong. Project:Pong offers many hours of fun gameplay with lots of levels and a competitive local multiplayer. Here's a list of content that the game will have: 18 new game modes, each with different features 50 levels Character customization Over 50+ unlockable skins In game Achievements with interesting challenges Bosses Master mode And more! For more informations follow Project:Pong on instagram. I'm constantly uploading new videos! In the Master mode you will face the Master, and beating him is the most difficult quest in the game. In this game mode the ball moves at an extremely high speed, but the Master is able to predict where the ball will go almost every time! The best I managed to do was to score 5 points and then lose miserably.. Who will be the first to defeat the Master? Cheat code to instantly unlock all gamemodes, skins and levels: In the main menu press F8 and then type 4321 in the keypad that will appear on screen. st - a safer bridge for schoolchildren Safety is an important issue to anyone using the Knight's Tryst bridge which spans the Pengam Dyke during the spring high water season. The Pengam Dyke is a designated flooded area, and the section it crosses at Knight's Tryst is solely triggered every year for the beneficial flooding. This involves removal of the normal flood mitigation works and restoration of the original floodplain. To make sure this happens, Gwynedd Council is working with local voluntary environmental organisations and the public to promote awareness of the annual spring high water season. As the flooding season begins to draw to a close, there are a lot of activities associated with the collection of aquatic plants. Llech Borth (Agricultural Society) is starting to collect the more abundant aquatic plants to place in the Botanic Gardens at Llanllechid. There is already a display of these plants at the Mensbridge Centre and they are open to the public. The herb s are a traditional food plant for Dyfi village women. The Agri-Environment Centre, Llanrhystud and local environmental groups, such as Y Bigyn and Cymunedantsion, are becoming increasingly active as volunteers. Groups such as Cymunedantsion and Countryside Resources will be working with local school children, Llanfynydd Community Centre, Gwynedd Council and the Parents Association to promote the value of the flooded river-side habitats for people and other wildlife. In previous flood seasons (1962 to 1969), before there was the need for seasonal river clearance because of the creation of the floodplains to suit the restrictions on farming practices, landslips, flooding and property damage were common. The resulting loss of life was not uncommon - in 1961 four people and nine stock drowned in a rainswept incident on the Merthyr Dyfi flood plains. Given the increased lengths of these river floodplains, drainage problems will be encountered if the benefits of the flood are not considered in the future. The trig-point at Knight's Tryst, for example, had to be lowered in two places to prevent people and small animals walking into the river from an area that would have been inaccessible during high flows.
