SlovoEd Deluxe French-French Dictionary Crack+ [2022-Latest]

SlovoEd Deluxe French-French dictionary is a compact application that helps users improve their French vocabulary by finding the appropriate translation of words. It sports a clean and intuitive layout that allows you to set up the dedicated parameters with minimum effort. The program gives you the possibility to perform search operations, include wildcards in the searching process, view a list with similar words, as well as take a quiz with user-defined words. What's more, you can listen to how words are pronounced, create bookmarks, check the grammatical information for each word (e.g. gender, part of speech), as well as change the text size. SlovoEd Deluxe French-French enables you to activate the popup translation mode for automatically generating translations whenever you hover the mouse cursor over a word. This comes in handy especially when reading emails, documents, or online information. Other notable characteristics worth mentioning are represented by the possibility to build a new dictionary by providing details about the name, entry and translation languages, import data from MLX, HTML, or DSL file format, as well as use the built-in article editor for

adding entries to the dictionary, which can be tweaked in terms of title, translation, example, comment, and other data. During our testing we have noticed that SlovoEd Deluxe French-French carries out a task quickly, and no errors showed up throughout the entire process. It doesn't eat up a lot of CPU and memory, so the overall performance of the computer is not hampered. All in all, SlovoEd Deluxe French-French seems to be the right choice in case you are looking for a simple-to-use French dictionary that provides a handy set of parameters for helping you find the translation of words.

What's New in the SlovoEd Deluxe French-French Dictionary?

Customization allows you to get the most from your product. Add your own language and even

your own translation in a couple of mouse clicks. Get the translation on your mouse hover With this filter you can tell SlovoEd that a word is actually useful for your dictionary and that it should be translated every time you hover your mouse over it. This is especially useful when you use the popup translation. Not only on the mouse hover SlovoEd allows you to also translate words that are not on the mouse hover. The words that get the translation from a mouse hover are called high value words. You can also set a value to the words that should get the translation automatically. What is high value word? The value determines how important a word is for the business. The smaller the value is, the less important this word is. A number of high value words will be translated on the mouse hover. Images of high value words You can see the high value words by hovering over their images. You can switch the images on/off by right-clicking. Set the high value words per language You can set high value words in the Options menu.
