our data are the first to characterize pharmacologic mechanisms of protection against \*E. coli\* K1-induced sepsis in preclinical rat models. Amelioration of systemic inflammation by Tep-1, a TLR4 agonist, and reduction in the inflammatory gene expression by myristylated-TAT, a hERG blocker, are the most pronounced mechanisms. Treatment with these pharmacologic agents could be promising, especially in patients with hERG-related cardiotoxicity. MATERIALS AND METHODS {#h4}

===== Cell culture and measurement of TNF- $\alpha$ . {#s4.1}

----- Human embryonic lung fibroblast cells (HFL-1; ATCC) were maintained in a 1:1 mixture of Ham's F-12 (DMEM) and Kaighn's modified Ham's F-12 nutrient mixture, supplemented with 10% fetal bovine serum, 1% [l]-glutamine (Sigma), and 1% penicillin-streptomycin-amphotericin (Invitrogen). Cells were cultured on 12-well plate for experiments and transferred to a 145-cm<sup>2</sup> flask for 1 week before changing media to 1 ml in 10 ml medium. Cells were cultured at 37°C in 5%

## **What's new:**

**7 Days is a 2020 American mystery thriller film directed by Jesse Peretz from a screenplay written by Michael Chabon. It stars Affleck and Pitt together with Julia Louis-Dreyfus, Lena Waithe, Julianne Nicholson and Christopher Heyerdahl. The film follows two friends who attempt to uncover the truth behind the suicides of seven neighbors who died in their posh San Francisco neighborhood. Principal photography began in October 2018 and wrapped in March 2019. It was released in the United States on March 6, 2020, by Fox Searchlight Pictures. The film was theatrically released in the United Kingdom on July 24, 2020, in response to the Grenfell Tower disaster, with proceeds going to charities working with survivors. It had its world premiere at the Toronto International Film Festival on September 7, 2019. Plot The suicide of a 7-year-old boy named T.J. sparks a series of deaths among a group of upper-middle class residents. The neighbors are all predominantly white and affluent. Several of the residents attend the same PTA meetings and start to suspect one another of possible crimes. Investigator Mark Strand, known for his cheery demeanor, joins the investigation. Mark is a former police officer who recently took a leave of absence from the force. He and his partner Mark Fife became friends during their service together. Mark reunites with Fife and helps him with the case after Fife's son commits suicide. T.J. was found hanging from the ceiling of his bedroom by his neck at the home of his mother Megan, who died two days earlier from a "freak accident". After the police determine the probable cause of T.J.'s death, Mark is asked to review the case. His initial reaction to the events is skepticism. He swears to stop drinking, and investigates the incident. After meeting with T.J.'s parents, the case appears to have blown up out of all proportion. Sherry, who lives across the street with her wealthy husband Leo, mentions at a PTA meeting that she saw the family leave for a camping trip and return 15 hours later. Another neighbor recounted that when T.J. was drowning in a neighbor's pool, he asked to be rescued. Reggie, who works as T.J.'s barber, claims to have been walking home from an early morning job when he encountered a stranger, an Asian man,**
