What's new in Trail Of The Damned:

The Chronicles of Amber. The Book of the New Sun. Thrice-greatest series on all of my shelves. Then the Gap chose to put out a prequel series, before those. Called the Warhammer 40,000 fiction or the Dark Age of Camelot series that's canon. It was awful, the prequels make the originals even better. And now we find out someone started a Shadow of the Empire. I'm going to do a review here as it's very close to the type of story I like to read, and also on the middle of my emotional spectrum when it comes to this. Let's get to it then. I'm going to assume you've seen the new trailer for this, so we can skip the repetitive parts. And if I skip any of the major ones from the previous ones, you know why I skipped them. Now.. get ready. Well, you've seen the start of the story, and we have a full trailer for you. Basically how it goes, we have a Messenger of Astaria, that is summoned to a planet called Khir'ai. I won't give the entire premise, but it's as simple as a planet of orcs, and the emperor or queen is dead. Each person around him gets a vision and then tries to give him a message. It serves as the beginning of the story line, but it won't be until a bit later that the Messenger really makes his way across the galaxy. Now, as I already mentioned, this is the type of story where I can connect with the story with most people. I don't believe any kind of racism or stuff. And thus, our main character, at least in his initial reading, comes off a bit like Jack Sparrow of Pirates of the Carribean. I love the St. John's series and I feel like there are so many times that central character more fits the "I'm going to hate on this guy, but honestly he's a great main character" sort of situation. Even on a 10 out of 10 scale, Sparrow still feels like a character that I don't sympathize with - if he's good, then I'm

gonna like him, but if he's bad, I might not really like him. However, that's not true with the character in this. He starts off a bit horrible, in my mind, then starts quite slowly to get better. The characters themselves are fine. Really the only one I wish he stayed on
