When you customize the computer, you can do more than change the wallpaper and get a new screensaver. For instance, you can change the icons of all

---

the important items on the screen. The pack has two types of icons, namely one dark and one light. These come in two file formats: ICO and PNG. The ICO files have dimensions of 256 x x

---

16, while the PNGs are at 128 x 128 pixels.

Thus, you may change the icons to the entire Adobe suit, such as Photoshop, Lightroom, InDesign and Dreamweaver, the office apps, including

---

Word, Slideshow,  
OpenOffice and  
Notepad. Additionally,  
there are a bunch of  
icons for various  
communication apps  
and browsers, such as
