It does not work in iOS 5.0 or iOS 5.1.2!
Â Even if you manage to open the app you
will not have the option to log in. Â In iOS 6 it
is the same. Â We have not yet checked iOS
7 (we have not received any such reports
yet). Â You must have a good, functioning
email address in order to register and
receive Confirmations. Â You can not add a
non-working email address to your profile
and expect a Confirmation email to get
through to you. Â If you are still having
problems with the app please contact me at
ohad.harel@nowboarding.com. The user can

include some basic information about themselves, including name, address, phone, email, etc, by creating a profile for themselves. However, we do not require any personal information at this stage. When the user clicks the "Confirm" button will we send them the Confirmation email. Once the user clicks the Confirm button, we do send them a Confirmation email. Our business model is to charge a minimal monthly fee to the business owner for the service we provide. While we do not charge at the time of each transaction, the owner needs to be aware that the cost of the transaction will be greater than the cost of a credit card transaction. The user can browse and search for business owners with whom they wish to establish a transaction. We do have a limited system in place to check credit card charges against our own system. When the transaction is sent we will add a charge to the business owner's account for that particular transaction. The charge will show up as a "Gift Card" for the business

owner. Â The amount of the charge will be the total amount of the transaction. Since we have a transaction limit on the cards that we can accept, we do have to restrict the amount that can be charged to each user individually. Â When the user sends the transaction, the amount of the transaction will be limited to the total value of the cards that the user has associated to their profile. Â The amount of the transaction sent will be shown in the transaction receipt email that will be sent to the business owner once the transaction is complete. Â The user will have the option to either change the amount of the transaction or
