Bulk SMS Sender Crack+ License Keygen [April-2022]

SMS Broadcast is a universal SMPP (SIMPLE Message Protocol) program that

allows you to send bulk SMS (text messages) to any mobile device in the world! Just select the mobile operator or send the URL of the web page (HTML file), and the program will do the rest! SMS Broadcast also allows you to track SMS traffic for any message you'd like to monitor – sender, receiver, the message itself, its cost and more. Use it to analyze SMS traffic for your business, and even use it to generate a report of your SMS marketing campaigns! SMS Broadcast is the only program that allows you to control your SMS traffic for ANY country,

even the smallest ones! Key Features: + Creates a HTML (Hypertext Markup Language) file for every message you send with any mobile operator + Simple messaging protocol (SMPP) server support + TCP/IP support + Operates on any machine - no need to run it in a web server! + Adjustable transmission rate: from 100 to 500 SMS messages per minute! + Additional feature to check your monthly SMS traffic costs! + Supports all mobile operators: Free, Vodafone, T-Mobile, Orange, Carphone Warehouse, etc. + Supports all mobile

devices: Windows, Windows Mobile, and Blackberry phones + Supports all mobile networks worldwide! + 100% safe: no spam SMS! SMS Broadcast is not meant for you if you are looking for just another bulk SMS service, software, or program. In short, SMS Broadcast is a high quality SMS program that was specifically designed to send bulk SMS to anyone in the world!
