In 38 patients suffering from traumatic luxatio obturatoria injuries the Schiller-Kaufmann splint was placed after open reduction of the dislocation. In 87.5% complete and partial remission was found, 12.5% no improvement. In patients with bilateral luxatio obturatoria the functional results were better than in those with unilateral luxatio obturatoria. The Schiller-Kaufmann splint is indicated in all luxatio obturatoria, but especially for lateral luxatio obturatoria with simultaneous fracture-luxation of the pubis.Q: How to transform x,y coordinate into degrees using matplotlib? I have 2D scatter plot of my data where I want to use the latitude and longitude (x,y) to mark the points on the plot. Lat and Long is in decimal (example: -58.4375, 7.16) while X and Y are in decimal (example: -4.00006, 4.7500). How can I convert the x and y into the rotation of longitude and latitude degrees? A: Assuming the x/y coordinate are in degrees: import matplotlib.pyplot as plt plt.scatter(x, y, c=c, s=50, transform=plt.gcf().transAxes) Berthe Laval Vouvray Berthe Laval Vouvray is a Canadian producer of single-vineyard wines from the Vouvray appellation in the Loire Valley.
