This court has held that the two offenses are not subject to double jeopardy because of the "allowable differences" between them. State v. Grady, 718 A.2d 271, 279 (R.I. 1998). Under a two-tiered analysis, this court must determine whether the criminal acts are sufficiently similar. First, this court must determine whether the offenses are cognate. A cognate offense is one that shares common, or kindred, features that reflect the purpose, the subject, and the character of the common law crimes. The question of cognizability is one of degree and must be examined in the light of the facts of each case. A cognate offense is one that is in some manner included in the other offense. Id.
