### **Key OST:**

**Super Bunny Man** is a character in the Mario franchise, who is also known as simply **Bunny Man**. He first appeared in the Game Boy Advance platform games **Mario Kart: Super Circuit** and **Mario Kart DS**. He is a recurring character in the Mario Kart series and others in the Mario platform series. Super Bunny Man is a power-up modeled after and resembling the Sonic series' Super Sonic the Hedgehog. Like Super Sonic, he has a hop-turning ability, the ability to hover, and high-flying speed. He also has the ability to temporarily turn invisible. Super Bunny Man was created to be a smarter, more colorful and vibrant version of Super Mario Bros.'s own modified red Koopa Troopa. Super Bunny Man is generally the only character who can outrun a driver at high speeds. Mario Kart: Super Circuit featured him in the items game, and Mario Kart DS featured him in the courses. Super Bunny Man has garnered both praise and criticism among hardcore fans. Some have said he deserves better while others have said he's boring and a copy of Super Mario Bros. Super Bunny Man first appeared in Mario Kart: Super Circuit, a racing game released for the Game Boy Advance handheld in 2001. Super Bunny Man subsequently appeared in the Game Boy Advance game Mario Kart DS. He is a recurring character in other games in the Mario Kart series including Mario Kart: Super Circuit 2, Super Smash Bros. Melee, Mario Kart Arcade GP Tournament and Mario Kart Tour. Super Bunny Man also appears as a playable character in Mario Kart Tour and Mario Kart Tour Deluxe. Mario vs. Donkey Kong series Super Bunny Man appears in the Game Boy series as a playable character in Mario vs. Donkey Kong Racing, but is only playable in single player. Animal Crossing series In Animal Crossing: Wild World, Super Bunny Man can be unlocked in Customizable Race as a playable character. In Animal Crossing: New Leaf Home Designer, he appears as a Rotten Mushroom Blower in The New Leaf End-of-Summer Update. In Wild World Nintendo released a patch that allowed him to be playable in multiplayer. Super Bunny Man was initially planned to be a playable character in Mario Kart: Super Circuit 2, but was cut due to game length. As a playable character, he would have had moves similar to Super Mario Bros. Unused characters include Mario, Sir Alfredo, Casey and
