"The newest RPG from Square-Enix, Final Fantasy Tactics: War of the Lions, has been, essentially, wrung dry. I've played it at least six times in two months, and it hasn't lost any of its appeal." - GameZone "Final Fantasy Tactics isn't just a remake, it's a game that should exist, and War of the Lions is something that should have been released 14 years ago." - IGN "It is to Final Fantasy Tactics what Mobile Suit Gundam: Crossbone Versions is to Gundam and Kingdom Hearts is to Kingdom Hearts. It is both different and the same and then some. The inclusion of characters and items from other Final Fantasy games is amazing and every new battle is a wonder to behold." - Touch Arcade "This is a great game. Fantastic visuals, great sound, great gameplay and lots of weapons and interesting attacks to blow up your enemies. It's pure brilliance." - WhatCulture "A truly remarkable game." - FriendlyAce "I could genuinely say that I'm a fan of Final Fantasy Tactics, and this makes me a fan of Square Enix even more. I can't recommend this enough." - RPGPlayTime "Final Fantasy Tactics: War of the Lions is a fantastic game that looks like it was made in the exact same vein as Final Fantasy VII, and that's awesome." - JourneysGame "If you have any knowledge of Final Fantasy Tactics at all, you'll know what to expect from War of the Lions. You have the basics, and you have the extra bonuses. The only knock against the game is that the replay value is rather poor; there isn't much in the way of hidden things or unlockables. Still, with Final Fantasy Tactics: War of the Lions, you will certainly earn your money." - MyGaming "As with all the Final Fantasy Tactics titles, War of the Lions is a challenge of keeping up with it all. While it may seem like a daunting task, it's actually a rather enjoyable one." - Psyren Games "An amazing game and by far the best Final Fantasy Tactics to date." - RPGi. • Exclusive Content – More Quests, Classes, and Characters – New Characters – Bonus Story Content • New Classes, Weapons, and Items – Classes and class-specific weapons and items have been added – As the game progresses, players will be able to access all the classes bff6bb2d33

Made by Pt. Suresh on the tabla, it's an awesome song in my opinion and definitely one of the more effective anthems in the film. Played with bombastic conviction, it surpasses the film's other anthems in the series. I love this song. Mammilalli kanoopo antheeradaa thavarechaiye. Made for the mode scene in the film, it's even the scene opener. The song begins with a punch-drunk heavy bass and a guest vocal, both of which strike a new note in what would be the thematic trend of the film and end up defining the essence of the film. The set is middle period Bollywood made good to the letter, with the tabla playing behind an aggressive band and male vocals bellowing in wild abandon with female ones chiming in and out. The set opens with a vibrant bellow of power, a minor-mooded mid section and the hooky chorus. I will sing my sorrowSolve my sorrowSolve my sorrowsSoul of my sorrowWorld of my sorrow.World of my sorrow
