Grass Valley EDIUS Pro 7.52 Build 012 (x64) + Loader [SadeemPC]Â . Education: July 21, 2020 McCormick Place North Buildingâ€¢ Halls B1 &. Education Day.Q: Maven Subversion Integration with Eclipse.project files I have a maven project working perfectly with Eclipse (PDE/Subclipse/M2E) and use "Eclipse Marketplace" and "Maven Integration for Eclipse" to manage my maven build process. I have SVN working with Eclipse and Maven as well - and work great in PDE. However, for some reason (likely a git vs

svn issue) I now have a .project file that does not get imported in the process. This is very frustrating, because it is driving me crazy to not be able to "Maven" my way through this. Ideas anyone? A: Sounds like a problem with Maven Management plugin, make sure you don't have locked or outdated versions in your Eclipse configuration.
