
Decompression Failed With Error Code-14 Pes 2016 2 Avatar Horse Program

I was having extreme pain in my lower back and down my right leg. I decided to go in for a soft tissue massage. After receiving my massage I had significant relief, but it didn't go away. I went in for an x-ray and ended up with a surgical problem. The doctor couldn't figure out where the pain was coming from so they scheduled surgery. After reading an article on Dr. Prieto and the DRX 9000 Spinal Decompression machine, I decided to give the program a try. After a few treatments, the pain was gone. I haven't had any pain at all since. I am still recovering, but no pain and nothing is painful. I recommend the DRX 9000 to anyone that is experiencing back pain. I have had back pain for 20+ years with severe tightness. I began to have consistent pain in my low back and felt like I had to stop everything because of it. At the age of 50, my wife and I had back surgery. After a couple years of physical therapy, we made a miraculous recovery, but have had back problems since. When I was introduced to the DRX 9000 spinal decompression program, I figured it wasn't worth trying because of the price. However, I learned about Dr. Prieto and his background in the field and decided to give it a try. This was a great decision! I now walk with less pain, have more endurance, and am able to run again! Last summer, I suffered a myocardial infarction and later a pulmonary embolism. The angioplasty and anticoagulation therapy were successful in preventing further events. I elected to go to Maine Chiropractic College and train as a chiropractor. I was informed that one of the best things I could do for myself was chiropractic decompression therapy. I underwent the intensive six-week program and the benefits have been dramatic. I am no longer suffering any heart related pain and my previous infarct scar has changed to a scar that is almost undetectable. I have had three cardiac catheterizations that were all performed with no procedures. I have lost over 40 pounds and have been cleared to start a triathlon. My cardiovascular stress test was the best of my life.
