ASUS DVD Re-Writer (DRW-24F1ST) - driver required. First, I'm not sure this is the correct section of the forum to post this question. If .NET 3.5 is not installed on your computer, you may not be able to use this device. Secondly, although this is not discussed in the

documentation, I'm not sure if this is exactly what the DVD drive is designed to do. If you have Internet access, please refer to the Troubleshooting Manual knowledge base. Thirdly, there is no need for the driver to be installed only on your computer, just download it for your OS. This download should work on Windows XP and Windows Vista.
