Designed to help you inject modern, contemporary looks in to your next modern script, this editable material pack with 12 categories will take your material game to the next level. All are fully editable and you can set your own brushes and colors. The Greyscalegorilla Modern Surface Material Collection takes you beyond the regular surface collection. Almost all of the materials in this collection can be customized to fit nearly any font face, add a little grunge, or make even the most structured materials look like they were hand painted. The final results look so good, they could easily pass for hand painted pieces. Endless possibilities this collection gives you. With over 600 high-quality materials, all materials can be easily customized in order to fit any and all typefaces. Let's face it: No material in the world comes with a 1-size-fits-all set of colors. Fuse the materials with your own color choices and bring them to life. And since they are technically "editable", you can use them as is or modify them to suit your own projects. The Greyscalegorilla Surface Material collection offers artists a one stop shop for all of their different surface needs. In addition to the 128 materials, the package comes with 6 high resolution templates for use as reference in creating your own materials. Finally, the in-house created publication tool lets you conveniently add your custom made materials to a folder structure that allows you to separate the different project types. The material folders also separate them into the different categories and sub-categories, which make it easy to find exactly what you're looking for in a matter of seconds.
