Mobile Suit Gundam Seed Destiny Generation Of CE JAP PS2 Yuuji Iso

a humble farm boy becomes a great soldier of the universal century. for the first time in the saga, the mobile suits are used not only as weapons, but also for reconnaissance. as a result, the story unfolds in a tense atmosphere where the enemy has no qualms about killing civilians to strike fear into the hearts of the enemy. the classic universal century topics of war, politics, and politics (with an added dose of romance) are the focus of the series. as the series unfolds, the story becomes much more complex. characters grow into adults as the story progresses. many more characters are introduced, and the narrative continues to shift from one side to the other. the plot twists and turns are many, and this series offers a bit of everything. fans of the one year war, the uef, or the mobile suit gundam series in general should find something to enjoy here. the hygogg is featured in the anime series, however, the anime series would make some changes to the hygogg. first, the two launch missiles on the back are modified to be four in number, each one of the missiles being capable of being fired in rapid succession. second, the medium-caliber machine gun is replaced by the hygogg's main gun with a longer, wider barrel. third, the hygogg's original main gun is replaced by the msn-011's main gun, which had a shorter, sleeker barrel with more effective performance against mobile suit armor. fourth, the hygogg can also use its bow as a missile launcher. this allows the hygogg to make itself more of a threat to mobile suits, especially against mobile suits that have difficulty countering two missiles from the back. 5ec8ef588b
