Don't enjoy back-tracking to change settings in order to do data recovery from a simple hard drive? Why not just change everything in a single step? Partition Recovery enables you to accomplish this in a mouse click, without ever having to change settings. No special knowledge is required. These do share the advantages of a full recovery based on data at the block level, without compromising on data recovery speed. They can also be used in situations where a drive is showing an error (e.g. a hard drive, magnetic disk drive, or solid state drive) or where you need to make a backup of data on a hard drive or other storage device.
