
Gta Iv Advanced Hook.dll Download [WORK]

cd path\to\your\scripthookdotnet\directory sc /t:lib /out:path\to\your\scripthookdotnet.dll sc /t:exe /out:path\to\your\scripthookdotnet.dll gta iv advanced hook.dll download compiled dll's are usually located in the same directory that where you place your script files. just double click on those files to execute them. if you changed the working directory to your script's directory, you can use a simple exe-file that enables your scripts to be automatically activated. if you use this script file, you can skip the first step above and just double click the resulting exe-file instead. this will create a working folder under your scripthookdotnet, name it, for example, "konigl directory". use this as the working directory for your scripts. make sure that you use the same working directory when you run your scripts. if you dont do that, the scripts will not find the scripthookdotnet dll that they need to activate properly. if you want to make this in windows, run the command prompt and go to the scripts directory. then just copy the scripthookdotnet.dll to the konigl directory. if you want to use visual studio's find symbol functionality, you can add the following #r reference to your script file. find symbol will try to find dll's that are imported in your script file first then scripts containing the name of the imported dll. #r "path\to\your\scripthookdotnet\scripthookdotnet.dll" gta iv advanced hook.dll download by the way, you can use any windows manager you like for scripting. this file enables you to select your preferred windows manager in windows7.
