there is no need of a dvd recorder for recording the dvd. you could have the dvd for back-up purposes only. that's why i have come up with this article. it should be noted that there are other

ways too. you could also have the dvd writer on your computer. and depending on your computer specifications, it is all possible with a little of effort. but the truth is that burning the dvd takes more effort than just a simple conversion. the rise of the internet has changed the way we connect with others. people communicate with others instantaneously. this comes with a lot of problems, not least of which are the piracy concerns. fortunately, there are still some ways to stay safe online without giving up most of the benefits and conveniences of the world wide web. one of the most notable developments in this area is the emergence of applications that allow you to download movies and tv shows on the go. thanks to the apps, downloading movies from torrent sites has never been easier. it is not that this is the only method of downloading movies. what is more common nowadays is to go to a torrent site with a solid downloader for your operating system and download the torrent file. with a torrent downloader, it is possible to download any torrent file you need, one after the other without having to come back to the search engine from time to time. but is that always the case? these applications come with user-friendly interfaces that help users download content easily. some even allow for concurrent downloads that can help you download multiple torrents at once. that makes downloading content easier, with less hangups and waits. then there are other such issues that people may encounter, such as not being able to use the desktop app because it is for windows only. or even that they may not be able to download some torrents at certain times. it is also not that easy to burn torrent files onto a dvd, which is why downloading torrents on iphone is a better choice. aside from that, torrenting apps work efficiently on both platforms, android and ios. so, even if the desktop app is not available for whatever reason, it is still possible to get the torrent file on your iphone and burn it on a dvd. but how can you download torrent files on your iphone?
