## **What's New in the?**

A girl plants seeds in whimsical garden and watches them grow. This screensaver will create a relaxing atmosphere to relief your from stress and other worries. Review: I like this screensaver. Its

a cute, calming screensaver that will make you feel at ease. Here's what I love about it: 1. It includes a soothing soundtrack. 2. It isn't too fast paced and seems to have a gentle pace to it. 3. The girl doesn't seem to be in a hurry, and seems to be taking it all in. 4. As the screen changes, it shows new things. You can see the girl change out of clothes and show a different look. 5. The screen, for the most part, is black. I like it. Its cute and calming. What I don't like about it: 1. Its a tad slow moving for my tastes. This is my favorite screensaver, hands down. I downloaded the new version a few days ago, and I absolutely love it! I love how this screensaver shows a picture of a girl planting seeds in a garden. She uses different tools to help her, and different looks to change her outfit. This screen saver takes around three minutes to download. And once it's downloaded, there is no big thing to do! I like how you can choose whether or not to make the girl plant seeds. The girl isn't too high or low in quality. As well, it shows a black background. This is a great screen saver for anyone who is just a tad bit bored! When I installed the screensaver, it looked just like the one you see above. It's fun, it has a small amount of background to the screen, and you can turn it on or off. When you first turn it on, you can view the image and decide to start. The girl changes into different outfits as the screen changes, and each outfit has a different look to it. This is nice, and it doesn't get old. The backgrounds for each image are different and the girl doesn't look like a pro. This is great for those with a fun and interesting hobby or interest. New Beginnings looks and feels like a well-thought-out screensaver. Note: If you like my screensaver reviews, I have several other ones to download! -Dawn Conclusion: I highly recommend this screensaver if you like fresh looking screensavers with simple, but fun images!
