every step Create and
draw with precision.
Use your fingers, a
stylus, or the pressure-
sensitive pen to create
a drawing. To create

your masterpiece, use the line tool, select tool, and drawing tools, including the pencil, eraser, and marker. Use the mouse to navigate the canvas, or use the eraser to quickly erase mistakes. Get started by customizing and using a brush. To create a brush, choose a brush shape and a color. Selecting a color palette makes it easier to find the colors you

want. With the help of the color wheel, choose color shades and tints. Use filters to change the color of your drawings. Use tools to modify your drawings or make them look like old-fashioned watercolors. Save your work to image files or share it with others. Save your drawings to PNG, JPG, GIF, BMP, and PDF files. Use different fonts and opacity in images to

make them look more like they did on canvas. Share your files as PDF, PNG, JPEG, GIF, and BMP files. You can even send files as WhatsApp or Telegram messages! An art app that supports you Use the pencil, select, and line tools to draw, erase mistakes, and draw with watercolor. To draw or select a pixel on the canvas, use your finger, pen, or stylus. The pen

pressure settings can help you create realistic lines on the canvas. To edit the lines and shapes,
