Check your Apple Inc. keystrokes in real time.KEYMACRO is a small utility that captures, analyzes and logs all of your keystrokes, such as how often you press the "Q" or "W" keys. It does this by

monitoring the keyboard LED, which is an indicator of keyboard activity. KEYMACRO identifies what keys you are pressing and saves this data to an.ini-style file. The.ini file can be saved to disk, or e-mailed to someone.KEYMACRO Features: - Simply install the software and it automatically starts capturing your keyboard activity - You can configure multiple keyboards (such as an external USB keyboard) and assign each a different key combination - Each keyboard can have its own activity profile and keywords - When KEYMACRO is running, you can configure a keyboard shortcut to open a window with a list of keywords - Allows for a quick and easy look up of keystroke activity - Use the tools to analyze keystroke activity by specifying keyword, mouse or mouse button or even time ranges - Allows you to export keystroke activity logs - We have enhanced the keystroke dictionary to include new and exiting keyboard layouts such as French, German, Russian and Chinese - KEYMACRO captures both system and application keystrokes as well as mouse clicks and mouse movements - You can use the enhanced default keystroke dictionary or build your own dictionary - Supports over 50 languages such as English, French, German, Russian and Chinese - Supports over 100 operating systems such as Windows XP, Windows 7, Windows 8, Windows 10 and Mac OS X 10.10.4 to 10.14 - We have modified the program to remove the need to delete temporary files after use - You can specify custom spaces for storing the keystroke activity logs - You can opt to not log certain keyboard activity by using the options menu - You can specify a minimum and maximum amount of time to keep a keyboard activity log - You can specify whether to include all applications on the system or only the ones you have registered - You can send an e-mail with the activity log file to yourself or to a different email address. KEYMACRO Licensing: KEYMACRO has the ability to be licensed for the lifetime of the software. While it is completely free to use, it allows for multiple users to share the same installation. Once you have purchased the license, the program will not let you install multiple versions on 2edc1e01e8
