Column, "Blue Collar and Blue Scrubs: The Making of a Surgeon," by Loni..Q: Renaming of wordpress plugins I recently moved from one server to another. Due to many reasons I wanted to change the name of all my plugins. I have written a shell script and renamed it, but it's not working on all my plugins. For example, wp-readme-plugin-2.9.1 → wp-readme-plugin wp-getmedia-plugin-5.1.0 → wp-getmedia-plugin Is there any possibility of doing this manually through the plugins folders? A: I have solved the problem. I am not sure why it's not working for me while it's working for others. Using Directory Editor (Finder) I have made a backup of the plugins folder, renamed all the folders and moved the files. Then I found out it's not working for all the plugins and I have to do the same for those plugins. A: You can use the following script from the "WordPress Plugins Directory Cleaner" plugin. // Create a new plugin and register it new wp_plugin('mypluginname', '1.0','myplugin', false); // Rename to the old name wp_plugin_rename('mypluginname','myoldname'); // Delete wp_plugin_delete('mypluginname'); Steven M.
