==== d3x This is really cool! To those already playing, how are you doing this? I'm trying to push myself to figure out how to teach my brain to do this instead of relying on willpower, but I just get overwhelmed with so many things going on at once. ---

--- jsmeaton I noticed at the end the way the blocks are hooked up isn't to them forming connections, but to them being higher up, so they're more likely to fall down the higher you get. Is this what's happening with the blocks forming the pattern? -----

arman_shahbazi This is interesting. I usually get stuck at the wall trying to repeat the pattern and can't end up 'finding' the level. It might be a good idea to have a field with a music score at the beginning so that I can become more aware of my attention.

Q: How to implement back button for Cordova? I am creating an Android app using cordova 2.5.0. The app has a paginated list view which uses swipe gesture. I successfully swipe between the pages using the swipe gesture and my app opens on the respective page. Now I need to implement back button so that the user can go back to the previous page. I have tried adding the back button as navigation options as follows:

```
cordova.plugins.add("cordova-plugin-backbutton", { exec:
function () { window.plugins.backButton.pop(
```
