- Share for Review enables users to conveniently collaborate on projects without leaving Photoshop.
- A new browser-based editing experience makes it possible to edit, organize and exchange PSD files directly from your web browser.
- Selection improvements enhance the accuracy and quality of selections on any layer.
- A new Edit on Canvas tool makes it easy to edit all of your layers at once.
- New core functionality includes a powerful selection tool, user-definable Brush Presets, sophisticated adjustment tools like Warp and Smudge, as well as the increasingly popular Resolve Merge Layers.
- A highly requested feature, Adobe Sensei has been integrated with the Adobe cloud including access to cloud layers and the new Smart Adjustment Brush.
- A new Track Surface tool enables you to quickly add a new editing layer to your image or photoshop document and make any adjustments to it (dodging, burning, feathering, etc).
- Corel Painter's layer organization is now integrated into Photoshop, making it easier than ever to quickly add, move, edit and group layers.
