Beach Head PC Game free download full version for Windows. Beach Head 2002 features 4 heroes with a good cartoon-like feel that can be controlled... While it's hard to deny the wave of success that PlayBeachHead has had in the past few years, Beach Head 2 seems like a more updated game (in that it has a CRT computer and a modern style of game play), and with it, the sequel seems a bit stale. Beach Head comes with a lot of weapons, use these to destroy the enemy in numerous ways. The first one is the Cannon, by tapping A, you can direct a powerful be f the enemy, or blast a bomb-like heavy energy weapon that can do a lot of damage. What's good about the cannon is that it's directional, so when you aim at an enemy, you can see where the shell will hit first and make him/her/it/it's/their' death a bit more inconvenient. We think it's the BEST directional attack in the game. You can also use an RPG, a flame-thrower, a grenade, and a stick of dynamite. Reviews of Beach Head 2/ PC. Beach Head 2 may be the single most underestimated PC game since Far Cry. It has a unique art style (a bit like a mixture of Final Fantasy Tactics and Final Fantasy VII) and a fairly well-put-together story. It takes some time

to get used to the controls but is a good game for a casual gamer. Price: \$15. Reviews of Beach Head 2002/ PC. A good sequel to Beach Head, with a more distinct art style and better sound effects. The gameplay is more like the good old days when you had to tap L3 or ALT+A to aim. There are many weapons at your disposal, such as the peashooter
