**Share for Review:** With Share for Review, users can instantly share designs and work seamlessly across Adobe XD, Photoshop CC and Photoshop desktop applications. This feature eliminates the need to leave Photoshop to review designs shared via other services, and accelerate teams to focus on design and collaboration. Once designs are approved, they can be quickly shared and applied to productions across any of Adobe XD, Adobe Photoshop desktop or Photoshop CC. **Now team, device, and surface-agnostic:** With Share for Review, Adobe Photoshop now syncs images, paths, and strokes across devices and surfaces. Adobe XD and Photoshop desktop applications will now feature the same behavior – such as adding and deleting layers, resizing, and transforming content – when users open images from their application. Existing users can try Share for Review on Photoshop CC. **Selection improvements:** Adobe Photoshop has introduced new tool based on agency feedback and has added a one-click Delete and Fill tool to help users remove and replace objects in images. This feature will make design and photography faster and easier than ever. **New smart selection tools:** Photoshop CC includes smart tools that automatically segment and accurately select objects in images.
